

Our Internet Rules

Keeping everyone safe

Our Internet Rules

These are the rules we follow to keep us all safer on the Internet when we are learning.

Make sure that you never give your own or anyone's details over the Internet. This includes full name, address, telephone number, email address, mobile number or photograph.

Make sure that you never give our school's name unless you have permission to do so from your teacher.

Never agree to meet anyone who contacts you on the Internet. Always tell your teacher immediately if someone asks you to do this.

Always tell your teacher immediately if you see anything which makes you feel uncomfortable. Switch off the monitor.

Always tell your teacher if someone sends you a nasty message. Remember it is not your fault if you get a message like this.

Make sure you only go on websites your teacher gives you permission to use.

Only go on the Internet when your teacher or a supervising adult is in the room.

Never download music or programs without permission.

Only use school cameras to take a photograph in school if your teacher gives you permission, and remember to hand your mobile 'phone in to your teacher when you arrive at school.

Remember that the school may check your computer files and may look at the Internet sites that you visit.
