

In **Maths**, children will be developing skills in division and addition and subtraction using different units.

In **English**, children will be writing non-fiction reports about creatures.

They will be exploring newspapers and writing their own reports.

How you can help at home:

Spellings and multiplication tables practice are the most important skills you could develop at home. We also suggest reading for 10 minutes every night. Please ensure your child's PE kit is in school and another kit is used for after-school clubs.

Wombling Free!

Year 3, Summer Term

As **Scientists**, the children will be learning about plants with a particular focus on how they grow and the parts of the plant.

In **Geography**, the children will be developing mapping skills and learning about physical and human geographical features.

In **French**, children will be learning colours and practising greetings.

In **Computing**, children will be developing their filming and editing skills using the iPads.

In **PE**, the children will be developing skills in athletics.

In **RE**, we will be considering how and why people try to make the world a better place. We will explore the work of charities and their impact on those in need.

In **Music**, we will be developing skills in graphic notation and composing music.

In **Art**, the children will be mixing paint to create their own shades and tones. They will use line and shape to sketch wild flowers.
