Due for Review: September 2020

Introduction

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communication technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, encourage creativity and stimulate awareness to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe Internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school computing systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technologies in their everyday work.

The school will try to ensure that staff and volunteers will have good access to technology to enhance their work, to enhance learning opportunities for pupils and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school computing systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the computing systems and other users. I recognise the value of the use of technology for enhancing learning and will ensure that pupils receive opportunities to gain from the use of technologies. I will, where possible, educate the young people in my care in the safe use of computing systems and embed e-safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the computing systems, email, and other digital communications.

- I understand that the rules set out in this agreement also apply to use of school computing systems (e.g. laptops, iPads, email) out of school.

December 2014, S Bradley, Computing Lead

- I understand that the school computing systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.

- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.

- I will immediately report any illegal, inappropriate or harmful material or incident I become aware of to the Head teacher or Computing Subject Leader.

- I will be professional in my communications and actions when using school computing systems.

- I will not access, copy, remove or otherwise alter any other user's files without their express permission.

- I will communicate with others in a professional manner. I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.

- I will ensure that when I take and/or publish images of others I will do so with their permission, and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images unless I have permission to do so. Where these images are published (e.g. on the school website/blog) I will ensure that it will not be possible to identify by name, or other personal information, those who are featured.

- I will not use chat and social networking sites in school in accordance with the school's policy.

- I will only communicate with parents using official school systems. Any such communication will be professional in tone and manner. I will not use personal email addresses, phone numbers or social networking sites to communicate with parents.

- I will not invite pupils onto or engage with pupils on social networking sites, e.g. Facebook

- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my personal hand held/external devices (PDAs/laptops/mobile phones/USB devices etc.) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set up by the school about such use.

- I will ensure that any such devices are protected by up to date and anti-virus software and are free from viruses.

- I will not use personal email addresses on the school computing systems.

- I will not open any attachments to emails, unless the source is known and trusted due to the risk of the attachment containing viruses or other harmful programs.

- I will ensure that my data is regularly backed up, in accordance with school policies.

- I will not try to upload, download or access or any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programs or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.

- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.

- I will not install or attempt to install programs of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.

- I will not disable or cause any damage to school equipment, or the equipment belonging to others.

- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School/LA personal Data Policy. Where personal data is transferred outside the secure network, it must be encrypted. Memory sticks must not be used unless they are encrypted.

- I understand that data protection policy requires that any staff or student/pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.

- I will immediately report any damage or faults involving equipment or software however this may have happened.

When using the Internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work.

- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of school:

- I understand that this Acceptable Use Policy applies not only to my work and use of school computing equipment in school, but also applies to my use of school computing systems and equipment out of school and may use of personal equipment in school or in situations related to my employment by the school.

- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and/or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school computing systems (both in and out of the school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.
